01 PROFILE

I am passionate about pursuing my major in Information Technology and Computer Science. My goal is to get a job in the Software development field. I am worked in Virtual University Software House as software engineer. I enjoy solving technical problems, researching and developing new technologies, designing software applications for different platforms. I am also interested in pursuing degree programs in Information Systems Management, Computer Engineering, or Computer Science. I enjoy meeting people and working with them in a team environment. I am a quick learner with a fun, outgoing personality. In addition, I excel in my ability to work under pressure and handle stressful situations very well. These skills that I have will be a benefit for any information technology or software house company.
